976 3RD AVE, BROOKLYN, NY, 11232

Coordinates 40.655308, -74.007031 Report ID b1227ee1-4739-4cc2-9de0-a69b0eb42215
Created 2026-10-04T01:32:32.384Z

1

FRANCHISE UTILITY

CONSOLIDATED EDISON CO-NY INC

provisional — near boundary

Close to a service-territory boundary. This point is 0.31 mi from the nearest franchise boundary (CONSOLIDATED EDISON CO-NY INC). One territory polygon contains it, and that utility is named above — but the source polygons are digitized from utility-supplied maps rather than survey data, and within this band they may not be accurate enough to confirm the serving utility. The nearest other territory is **PUBLIC SERVICE ELEC & GAS CO**, which may serve this point instead. Confirm directly with the utility or the state commission before relying on this field.

Ownership type	INVESTOR OWNED
Regulated	REGULATED
Holding company	CONSOLIDATED EDISON
Control area	NYIS
Customers	3,593,840
Data year	2022

NEAREST HIGH-VOLTAGE INFRASTRUCTURE

#	DISTANCE	VOLTAGE	LINES	NAME	FACILITY TYPE
1	0.50 mi	345 kV	1	GOWANUS * BROOKLYN, NY	named terminal facility
2	0.65 mi	not recorded	n/r	JOSEPH J SEYMOUR POWER PROJECT BROOKLYN, NY	utility substation
3	0.75 mi	not recorded	n/r	GREENWOOD BROOKLYN, NY	utility substation
4	2.84 mi	not recorded	n/r	BENSONHURST BROOKLYN, NY	utility substation

#	DISTANCE	VOLTAGE	LINES	NAME	FACILITY TYPE
5	3.57 mi	<i>not recorded</i>	<i>n/r</i>	WATER STREET BROOKLYN, NY	utility substation

n/r = not recorded in source data · search radius 10 miles

- | | |
|--|--|
| 1 GOWANUS · 0.50 mi · 345 kV | 2 JOSEPH J SEYMOUR POWER PROJECT · 0.65 mi · kV n/r |
| 3 GREENWOOD · 0.75 mi · kV n/r | 4 BENSONHURST · 2.84 mi · kV n/r |
| 5 WATER STREET · 3.57 mi · kV n/r | |

Aerial imagery: USDA NAIP imagery via USGS The National Map — Public domain (USDA/USGS), retrieved 2026-09-27. Marker positions are the source dataset's own coordinates; where records coincide, markers are separated slightly so each stays visible. Distances in the key are measured, not scaled off this drawing. Not a survey.

* **Not necessarily an interconnection point.**

- **named terminal facility** — Named facility with only 1 line connection. May be a distribution substation or a dedicated customer service rather than a transmission-level interconnection point.

- Distances are straight-line (haversine), **not** engineering route length.
- HIFLD does not record substation ownership. Proximity does not imply availability — a nearby facility may be a customer-owned on-site substation serving an adjacent property.
- 4 of 5 substations listed have no voltage recorded in the source dataset. Absence of a voltage is not evidence of low voltage.

LOCAL MORATORIA

None recorded for these jurisdictions

Census places this point in Kings County · Brooklyn borough · New York city. This dataset tracks moratoria only — not project proposals, planning-commission reviews, or permanent zoning rules — so active local debate over a specific project will not appear here.

5 other instruments recorded within 25 miles (4 active or extended), measured to jurisdiction centroids.

Recorded is not the same as applicable, and the dataset is a lower bound: an absence here is not evidence that no moratorium exists. Detail and scope caveats: Appendix B.

4 DATA COMPLETENESS

6 of 6 expected fields resolved

Franchise utility is provisional: this point is 0.31 mi from the nearest service-territory boundary, inside the 1-mile band where the source polygons may not be accurate enough to confirm a single holder. The named utility is the containing polygon, not a verified determination; PUBLIC SERVICE ELEC & GAS CO may serve this point instead — confirm with the utility or the state commission.

5 WHAT THIS REPORT DOES NOT TELL YOU

- Available load capacity at any substation. No utility publishes this for large loads; this report is a screening aid, not a system impact study.
- Interconnection cost or timeline for a specific project.
- Zoning approval likelihood.
- Interconnection queue data is appended to the bottom of this report when a substation listed above is an exact name and county match against the queue dataset. Visit the [Queue Wire](#) for further research.
- Whether a local moratorium covers this site. Instruments recorded for the jurisdictions containing the point are listed in Appendix B, but their scope is set by their own text, which this report does not read.
- Transmission line proximity — substations only.
- Whether a substation is physically accessible, expandable, or has available bay positions.

This report is built to **rule out sites with no nearby transmission infrastructure**. A site with nothing in range is a defensible elimination. The reverse does not hold: proximity to the facilities listed above is not access to power, and nothing here establishes that a connection is available, affordable or achievable on any schedule.

JURISDICTIONS

US Census Bureau Geocoding Services — geographies by coordinates

<https://geocoding.geo.census.gov/geocoder/geographies/coordinates>

Retrieved 2026-10-04 · Public domain (US Government work)

Screening aid, not an engineering study. This report helps prioritize sites before committing to engineering due diligence. It is not a system impact study and carries no warranty. Underlying public datasets are published on their own schedules and may have changed since the retrieval dates shown above. Every figure in this report is reproducible from the cited sources; nothing is estimated, modelled, or generated.

B APPENDIX — LOCAL MORATORIA

Local moratorium instruments — temporary pauses on accepting or approving certain development, most often data centers — as recorded in a third-party research dataset. Rows are reproduced as published; this report does not read the instruments themselves. This dataset tracks moratoria only — not project proposals, planning-commission reviews, or permanent zoning rules — so active local debate over a specific project will not appear here.

A recorded instrument is not a determination that this site is covered. Which applications, zoning districts and sectors an instrument reaches — and whether a county instrument applies inside incorporated municipalities — is set by its text. Confirm with the jurisdiction before relying on any row.

Jurisdictions containing this point

The dataset records no instrument for **Kings County**, **Brooklyn borough**, **New York city**. That is a statement about moratoria only: a proposal under review or a planning-commission decision in these jurisdictions would not appear in it.

The publisher states its counts are lower bounds — small townships that do not post minutes online are the known gap — and that anything after 2026-09-23 is not included.

Within 25 miles

JURISDICTION	TYPE	STATUS	SECTORS	ADOPTED	ENDS	CENTROID
Yonkers, NY	City	active	battery storage	2024-07-16	n/r	19.9 mi
Hempstead, NY	Town	active	battery storage	2025-03	n/r	20.4 mi
North Hempstead, NY	Town	extended	battery storage	2024-12-03	n/r	20.8 mi
Glen Cove, NY	City	extended	battery storage	2025-05-13	n/r	24.4 mi
Mamaroneck Village, NY	Village	expired	battery storage	2024-10-31	n/r	24.8 mi

Distance is to the jurisdiction's centroid, not its boundary — a large county can begin much closer than the figure shown.

State-level actions — NY

ACTION	STATUS	MECHANISM	PROVISIONS AS RECORDED
Executive Order No. 62 (2026)	enacted · in force	statewide moratorium	Binding state-agency permitting restriction for data centers that consume or can consume 50 MW or more: DEC must hold incomplete discretionary permits, approvals, licenses, and similar permissions while DPS completes a statewide Generic Environmental Impact Statement; it does not override local permitting or zoning. https://www.governor.ny.gov/executive-order/no-62-establishing-temporary-moratorium-data-centers-new-york-while-state-develops
S6486D / A7389C (2021-2022, enacted)	enacted	statewide moratorium	Enacted a two-year moratorium on DEC permits for certain fossil-fueled proof-of-work cryptocurrency mining operations and required a generic environmental impact statement.

11 state-policy actions tracked for NY in total; only those the publisher records as enacted or in force are listed. Where the publisher's legal-effect field reads “unknown”, the current effect of an enacted measure has not been checked by the publisher, and it is omitted here rather than guessed. 150 local instruments recorded statewide.

Source: Moratorium Data 2026 (Bommarito) — local moratorium inventory · current through 2026-09-23 · commit dbaab04d84f8 · 1,291 instruments · CC-BY-4.0 (data) — attribution: Bommarito, Michael J. (2026), Moratorium Nation
https://github.com/mjbommar/moratorium-data-2026

- Each instrument is tied to a Census county, county subdivision or incorporated place only when the Census places the publisher's own centroid inside a geography of the same name and kind. 70 of 1,291 rows could not be tied this way and do not appear in this appendix.
- The publisher compiles the dataset from municipal records and news coverage with AI-assisted research and documents its known gaps in the repository.
